About ConSet and ergonomics

Ergonomics, Reliability & Innovation – The ConSet Standard

ConSet is a Scandinavian manufacturer of electric height-adjustable desks, celebrating 25 years of innovation.
Our products are designed to enhance efficiency, health, and comfort in the workplace, a commitment that defines the foundation of ConSet.

Since delivering our first electric desk in 2000, we have been pioneers in height-adjustable work-spaces.

Over the years, we have continuously refined our products through extensive development and production improvements, expanding our range while staying true to our core principles: rigorous testing, reliability, value for money, and choice.

Our new catalogue presents the widest range of frame options we have ever offered, with each series designed for a specific ergonomic purpose. Smaller tables are available in larger selections, and paradoxically, it also applies to larger ones that are suitable for many screens.
ConSet distinguishes itself in the market by meeting the testing requirements of European standards, ensuring high quality, safety, and durability.

In the professional office furniture sector, reliability and repeat orders are essential, and securing customer confidence remains a top priority at ConSet.

Find Your Perfect Desk

Scan the QR code or visit Conset.eu and click 'Height Calculator' to find the perfect desk for your height. The 'ConSet Height Calculator' recommends the ideal sitting and standing height based on gender, height, and footwear, and suggests the best ConSet desk to match.

For very tall or very small individuals, multi-user setups, or desks shared by adults and children, finding the right fit can be challenging. In these cases, the height calculator is an invaluable tool.

But remember — the best height is the next height!
Alternate between sitting and standing to stay active and get the most out of your desk and day.

501-88 — 125 cm / 65 cm
501-37 — 122 cm / 57 cm
501-39 — 118 cm / 58 cm
501-9 — 120 cm / 72 cm

LCA and Carbon footprint

Sustainability in Numbers, Not Just Words

The green transition is a reality, and manufacturers have a responsibility.
As an engineer-driven company, ConSet makes rational choices based on data to actively drive sustainability in our operations.

To ensure transparency, ConSet has performed a Life Cycle Assessment (LCA), reviewed by TÜV under EN 14040, EN 14044, and EN 14071 standards. This analysis measures the full environmental impact of our products, from raw materials to end-of-life disposal.

We publish CO2 data for every product on our website, making sustainability reporting easier for businesses. While a secondhand wooden desk may have the lowest CO2 impact, it is not a practical solution for a modern, ergonomic workspace—where 60-90% of people experience back pain in their lifetime.

Electronics significantly impact CO2 emissions, which is why simplicity and efficiency are core to our designs. Fewer components mean greater reliability while reducing environmental impact. Our approach ensures that every product has a measurable and concrete CO2 value, making sustainability decisions clear and transparent.

Price and other supply factors still exist but inside all our priorities is how a product affects emissions with a concrete calculated number so that it is easier to explain than a lot of words.

Scan the QR code and read more about the results from LCA or see Conset.eu.

501-9 | Compact. Stable. Engineered to perform.

With over 25 years of experience, ConSet has optimized the single-column frame for strength, balance, and precision.
The 501-9 delivers maximum stability in a minimal footprint.

Available as a wall-mounted solution for maximum space efficiency or as a freestanding model with a stable base.
The freestanding version can be fitted with wheels or a battery, offering complete mobility—so your ergonomic workspace not only moves up and down, but from room to room

501-19 | One Frame. Endless Possibilities.

501-19 Center (A) – Strong with a symmetrical design allowing access from all sides and compatibility with small tabletops.

501-19 Basic (B) – Ideal for group setups, supporting up to 80 kg and various tabletop sizes.

501-19 Design (C) – Features a sleek crescent-shaped base, great for stylish and functional group arrangements.

501-19 Corner (D) – Designed for corner placement with a triangular base and rear wheels, allowing easy tilting for mobility.

501-19 Wall (E) – A space-saving solution with options for multiple units to lift wall-mounted benches.

For ultimate flexibility, add wheels and a rechargeable battery pack.

501-20 | Nothing Excessive

The 501-20 is a slim, height-adjustable desk that delivers exactly what you need—no more, no less. With a range of 68–119 cm and a 60 kg load capacity, it offers everyday performance in a minimalist form.

Designed using recyclable materials and delivered in compact packaging, it's the first ConSet desk engineered to reduce CO_2 emissions from production to delivery —without compromising on quality, durability, or ergonomics.

501-23 | Strong and Stylish

Lifting up to 175 kg, the 501-23 combines strength and stability with a sleek, elegant design. The centered base provides maximum legroom, on both sides of the desk, and balance without adding bulk. The desk also has an integrated cable tray.

Flexible configurations to fit any setup—wall-mounted (up to 3 synchronized columns), L-shape or straight 3-leg frames for larger spaces, and a streamlined 2-leg option for everyday use. Columns can be arranged in unique formations, limited only by imagination

501-33 | Efficient by Design

The 501-33 is designed with a focus on functionality and efficient resource use. It meets the EN 527-1, Type D standard, based on the 80/20 rule, ensuring it fits 80% of the European population.

The desk can be assembled in just 15 minutes using robust screws. The desk frame is designed in three large modules, it is both durable and practical for everyday use. Striking the perfect balance between price, durability, and performance, the 501-33 stands out as one of the most cost-efficient desks in ConSets range.

501-33 | Efficient by Design

501-37

501-37 | Ergonomics for All

The 501-37 is designed to accommodate users who don't fit standard office furniture dimensions—including children. With a height range of 57 to 122cm, it suits individuals from 144cm tall, both sitting and standing.
The frame supports tabletops as narrow as 60cm, and its low starting height allows for the addition of wheels without compromising seating comfort.

501-37 | Ergonomics for All

501-37 is available in 2-leg and 3-leg versions, the 3-leg model can be configured in a classic L-shape or a special version designed for extra rear support, ideal for multiple screens or privacy panels.

501-39 | Space Saver

The 501-39 is a wall-mounted height-adjustable desk with two columns, combining stability, functionality, and a sleek, minimalist design. Ideal for spaces with limited floor area and where easy cleaning is a priority.

With its clean and modern look, the 501-39 fits perfectly in offices, home workspaces, and institutions.
It integrates seamlessly with existing furniture and works both as a standalone desk or in multi-desk configurations.

501-43 | Premium Quality

The 501-43 combines elegant design and solid functionality, making it ideal for any modern workspace. Its distinctive base transforms it from mere office furniture to a stylish, professional statement. With 60 color and size combinations, it can be customized to fit your exact needs. 501-43 is available in both 2-leg and 3-leg versions.

Exceeding industry standards, the 501-43 offers a height range of 62-130 cm and a lifting capacity of 100 kg, ensuring strength and flexibility for everyday use. Designed for long-lasting durability, both in performance and appearance—a solution that delivers true value and quality.

501-47 | Dynamic Meetings

Enhance energy and efficiency in meetings with the 501-47 heightadjustable table, specifically designed for conference and meeting rooms. Available in both 2-leg and 3-leg versions, its strong, stable frame ensures durability, regardless of the tabletop. With lengths ranging from 112 to 342 cm and a lifting capacity of 150 kg, it is ideal for both small and large tables.

Choose from three finishes—black, white, or chrome—and add a battery and cable tray for extra flexibility. While designed for meetings, the 501-47 is versatile enough to function as a desk or multipurpose table, the choice is yours.

501-88 | Double Workstation, Minimal Footprint.

501-88 is a bench-style (back-to-back) desk, designed for offices that prioritize teamwork and daily collaboration. Each desk has two independently adjustable workspaces, allowing users to customize their setup without losing the team connection.

A privacy screen can be mounted between the desks. No feet to trap dust, it is easy to clean. Built-in cable management keeps wires tidy, while its compact, open design makes the most of every square meter.

STRENGTH AND STABILITY

Stability means everything when you're choosing a desk. Every height adjustable desk from ConSet is made with quality materials and meet both EU and Danish working-environment demands for a flexible and ergonomic workplace.

A height adjustable desk must work everyday and be easy to use for everyone. You can place your office equipment anywhere on a ConSet desk, and it will lift evenly and safely, even if the load is not loaded evenly. This unbeatable dependability is due to ConSet's one-motor-system. The operation is simple, no unnecessary complexity, just push the arrows for up or down on the user panel.

The total load on the desk frame must always be within the maximum working load that is specified for each ConSet product.

ONE MOTOR THAT DOES IT ALL

The one motor system and the simple mechanics that surround it, is the heart of a ConSet height adjustable desk. It ensures calm and gentle movements when you wish to move the table up or down and it ensures that the tabletop is always evenly adjusted.

- Real mechanics
- Real lifting capacity
- Less use of electronics
- Improved product lifetime

WORKING ENVIRONMENT

A ConSet desk will improve ergonomics for its users – and hopefully improve job satisfaction.

All ConSet tabletops are low emission E0(EN 717-1), so the formaldehyde emission is as small as possible, and poses no risk at all to users of the desk.
ConSet desks also have Clean Air GOLD certification.

CLIMATE CONCOIOUSNESS

At Conset we know it is important to minimize environmental impacts. We want to take responsibility for ensuring that our products are made respecting the environment. We do this in several ways:

- Life cycle assessment (LCA), in accordance with EN14040, EN14044 and EN14071 as a tool for targeted qualified improvements.
- CO_2 emission calculations on all models.
- All electronic equipment meets RoHS framework for the reduction of hazardous substances in electronics.
- Through Elretur(Denmark) we ensure that electronic waste is managed environmentally through WEEE directive.
- The EUTR(EU timber regulation) is the law of the EU and will later be replaced by EUDR. ConSet wood products that are not imported, exported to the EU are not treated differently.

CE-MARKING AND PRODUCT APPROVALS

All ConSet height adjustable desk frames are CE marked in collaboration with the Technological institute in Denmark. CE-marking ensures that the producer has considered all security risks.

- EN 527-1/2: Dimensions / mechanical safety requirements methods of test for the determination of Stability and strength of the structure.
- DS/EN 12720-21-22: Furniture assessment of surface resistance to cold liquids wet and dry heats.

ConSet - A BRAND FROM SCANDINAVIA

ConSet was founded in 2000 in Denmark (Scandinavia) with the basic philosophy that ergonomics should not be expensive. We began to develop and manufacture high quality, electric height adjustable desk and made them affordable so more people could experience the benefits of sit-stand desks. The company has succeeded well and now has distribution and subsidiaries throughout the world.
